COMPANY PROFILE

GROWTH STEEL GROUP

Built in 1964 by the Suhendra family, the Growth Steel Group continues to grow from strength to strength. The Growth Steel Group has a presence in the following fields of industry:

- Our Steel Division comprises of a Steel Mill, Foundry and Fastener manufacturing facilities in Medan, North Sumatera and Nickel Pig Iron blast furnace in West Java.
- Our Grinding Media Division supplies Grinding Rods and manufactures Grinding Balls in Medan, Indonesia and in Suzhou, China.
- Our Rubber Division manufactures Rubber Mill Liners and various rubber mining products in Medan, Indonesia
- Our Agriculture Division consists of Crude Palm Oil Mills, Palm Kernel Oil Mills and Plantations.
- Our Food Division operates in the area of Confectionery Manufacture in Medan, Indonesia.
- Our Biomass Powerplant Division operates in Medan, Indonesia, supplying green and renewable energy.

GROWTH COMPANY

Growth is one of the world's leading manufacturing foundries. We are part of Growth Steel Group that was established in 1989 to manufacture wear parts for Steel Mill operations. Since 1996, Growth commenced supplying wear parts to the mining industry. Our headquarters is located in Medan - North Sumatera, Indonesia and we have additional sales offices located strategically around the world such as Perth, Brisbane, South Africa, Ghana, Peru, Chile and China. We have the greatest confidence that we will only continue to grow stronger together with our partners around the world.

WHAT GROWTH DOES

Growth manufactures a wide range of high quality products, from Steel and Rubber Liners to Fasteners and Grinding Media. We provide sustained support to our customers with continuous consultations to achieve the highest customer satisfaction. Growth will always commit to offering the highest quality products, services and solutions for the grinding and processing of minerals in the mining industry.

GROWING A PROSPEROUS WORLD

OUR VISION

To grow a prosperous world by supplying quality products and excellent service sustainably to global industry.

OUR MISSION

1

To grow the prosperity of shareholders, employees, local communities and host countries.

2

To grow our understanding of global trends and innovations of the future to deliver the best products.

3

To grow and continuously maintain the highest standards in everything we do.

Growth is the largest iron and steel foundry in Indonesia. Now ranked as one of the top 3 global suppliers of grinding mill lining systems.

WHY CHOOSE GROWTH?

Reliable

Total Solution

Quality Assured

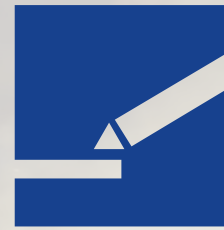

ONE-STOP SOLUTIONS FOR MILLING PROCESS APPLICATION AND GUARANTEED SERVICE EXCELLENCE

STEEL	RUBBER	GRINDING MEDIA
SAG/ AG/ BALL & ROD MILLS FEATURES	SAG/ AG/ REGRIND/ PRIMARY & SECONDARY MILLS FEATURES	STEEL BALLS AND RODS FOR EVERY MILLING APPLICATION FEATURES
 <p>Tough & Wear Resistant</p>  <p>International Standard Of High Quality Steels</p>  <p>CUSTOM LINER FIT We tailor solutions to meet your requirements</p>  <p>RELINE CHANGE-OUT TIME MINIMISED Minimising your down-time to optimise production</p>	 <p>Reduced Weight > 75% Lighter Than Metal</p>  <p>High Abrasion Impact and Tear Resistance</p>  <p>Increased Charge Weight</p>  <p>Improved Sealing Properties</p>  <p>Quicker and Safer to Install</p>  <p>50% Noise Reduction</p>  <p>Lower Cost Per Tonne</p>  <p>Excellent Chemical and Acid Resistance</p>	 <p>High Supply Capacity</p>  <p>Optimal Quality</p>  <p>Choice of Abrasion/ Impact Resistance or Balance</p>  <p>Guaranteed Maximum Wear Life</p>  <p>Custom Packaging Options</p>

OUR TEAM OF SPECIALISTS AND ENGINEERS PROVIDE

- Onsite Support and Expertise
- Onsite Installation and Handling Advice
- Product Optimisation, Customisation and Design
- Performance Assessment, Measurement and Monitoring

GROWTH'S CONTRIBUTION TO EDUCATION, ENVIRONMENT AND COMMUNITIES

GROWING EDUCATION

We provide education opportunities for individuals in order to push the industry toward a sustainable future with our ongoing projects:

- Supporting several local universities with free machining and engineering tools.
- Cooperating with several local universities for recruitment of potential candidates for employment.
- Providing scholarships to outstanding students to continue their education at a higher level attending partner local universities in Indonesia.

GROWING ENVIRONMENT

We take proactive steps to conserve what is precious to all natural life in a sustainable, respectable manner. Currently, our biomass power plant in Indonesia runs on organic, renewable source that generates steam power for our operations in Indonesia.

Renewable energy source

A better alternative to fossil fuels

Reduces landfills

GROWING COMMUNITIES

Taking care of the people around us helps grow their opportunities to create a new generation of better leaders. Our efforts include:

- Growth has been boosting the local economy of Indonesia by encouraging and opening opportunities for the purchase goods & services from local small & medium industries.
- Growth takes ample care in elevating the lives of our employees. We run easy loan programs with local banks to construct residential complexes for our workers in Indonesia.
